

All About SEA TURTLES!

FUN FACTS

Sea turtles have been around for over 100 million years!

They can hold their breath for up to 5 hours.

There are 7 different species of sea turtles.

Sea turtles return to the beach where they were born to lay their eggs.

HABITAT

Sea turtles live in warm ocean waters all around the world—except in very cold places!

DIET

Sea turtles eat different foods depending on their species.

seagrass

jellyfish

crabs

LIFE CYCLE

EGG

HATCHLING

JUVENILE

ADULT

YOU CAN HELP!

- ♥ Keep beaches clean
- ♥ Never disturb turtle nests
- ♥ Reduce plastic use
- ♥ Spread awareness!

Small actions
make a
BIG difference!

LET'S WORK TOGETHER TO PROTECT OUR OCEANS AND SEA TURTLES! ♥

All About PENGUINS!

FUN FACTS

Penguins can't fly, but they are excellent swimmers!

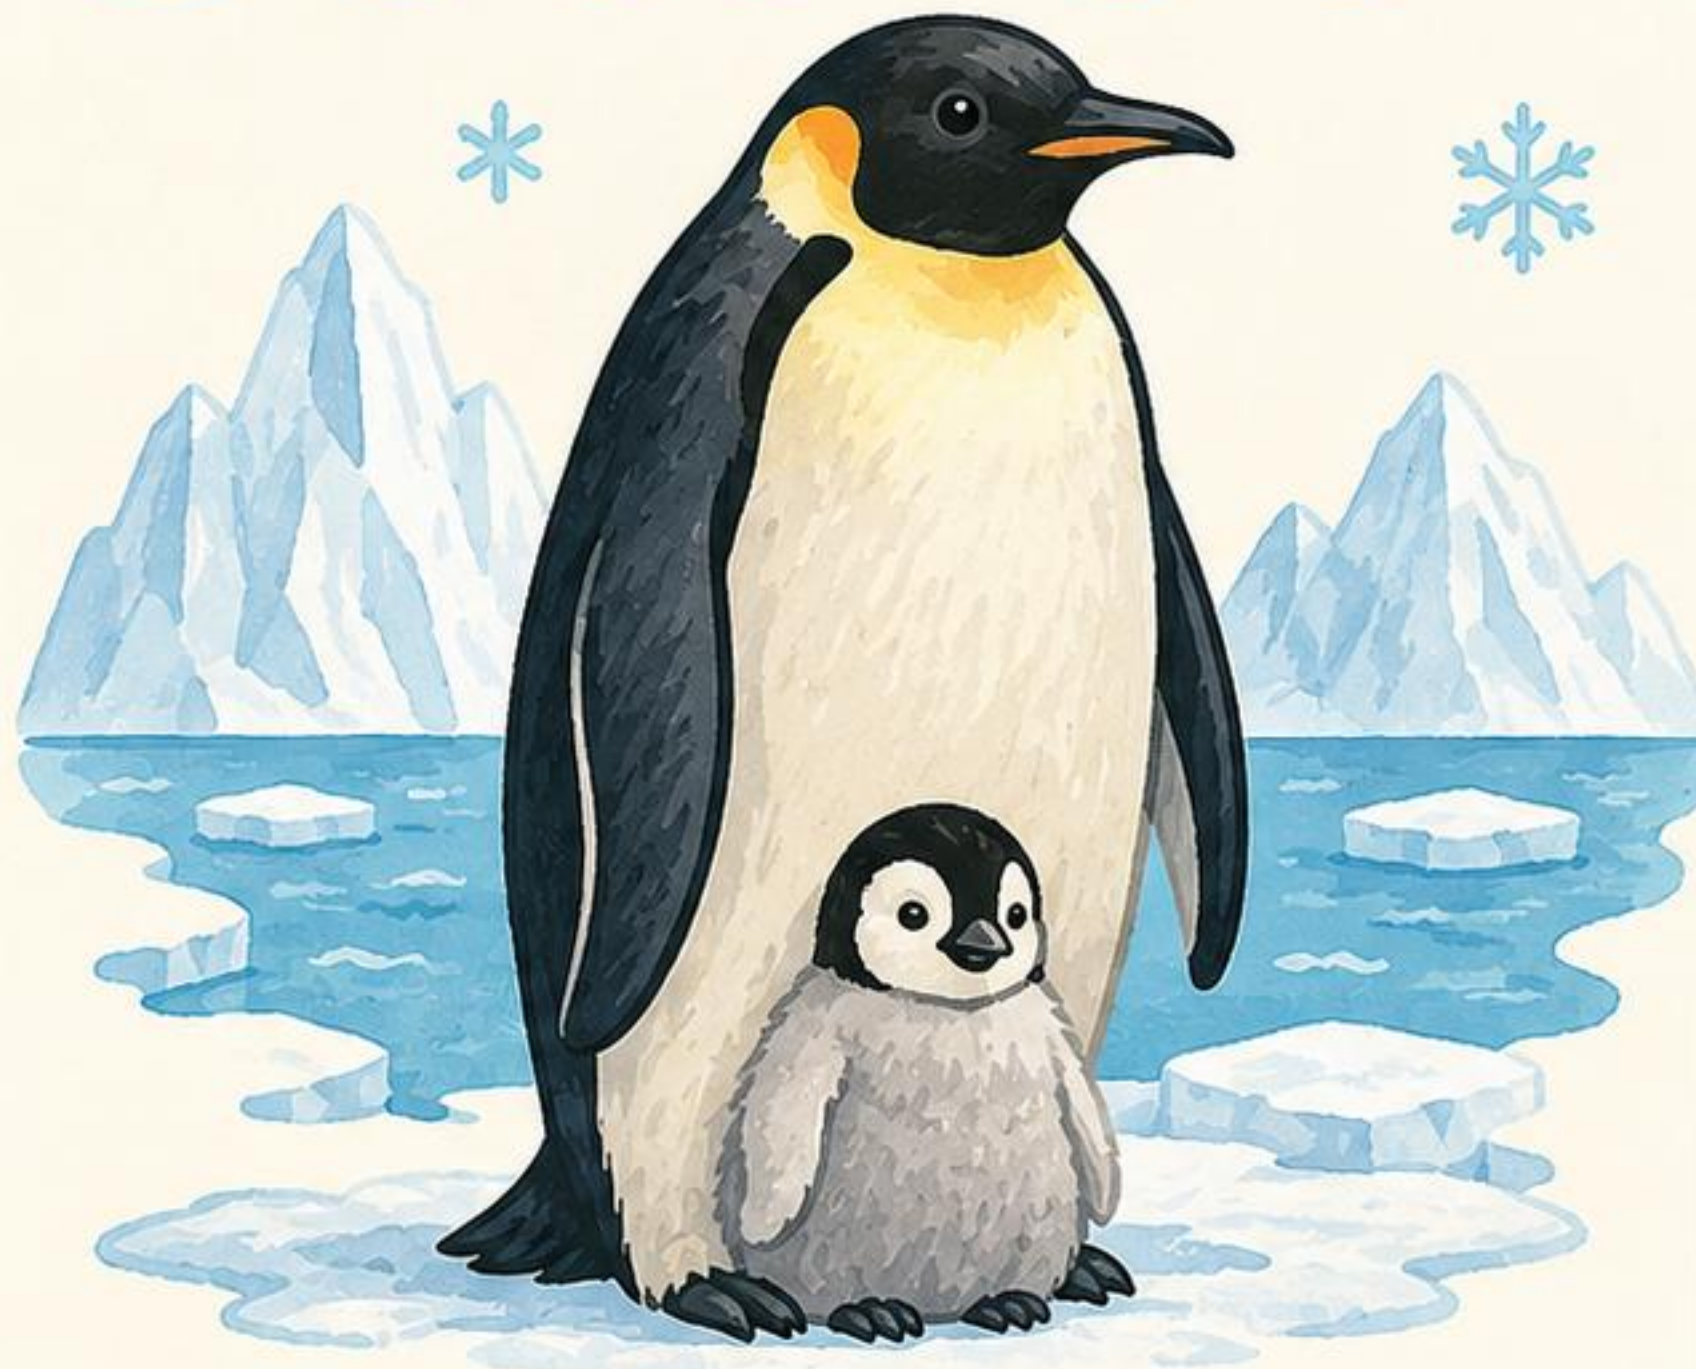

They can swim up to 15 miles per hour.

Emperor penguins can dive more than 1,800 feet deep!

Penguins huddle together to stay warm in cold weather.

HABITAT

Penguins live in the Southern Hemisphere, mostly in Antarctica and nearby islands.

DIET

Penguins eat fish, squid, krill, and other sea creatures.

fish

squid

krill

LIFE CYCLE

EGG

INCUBATION
(by parents)

CHICK

JUVENILE

ADULT

YOU CAN HELP!

- ♥ Pick up litter and recycle
- ♥ Never disturb penguins
- ♥ Save energy and water
- ♥ Learn and teach others!

Small actions
make a
BIG difference!

LET'S WORK TOGETHER TO PROTECT OUR PLANET AND PENGUINS! ♥

All About DOLPHINS!

FUN FACTS

Dolphins are very smart and can solve problems!

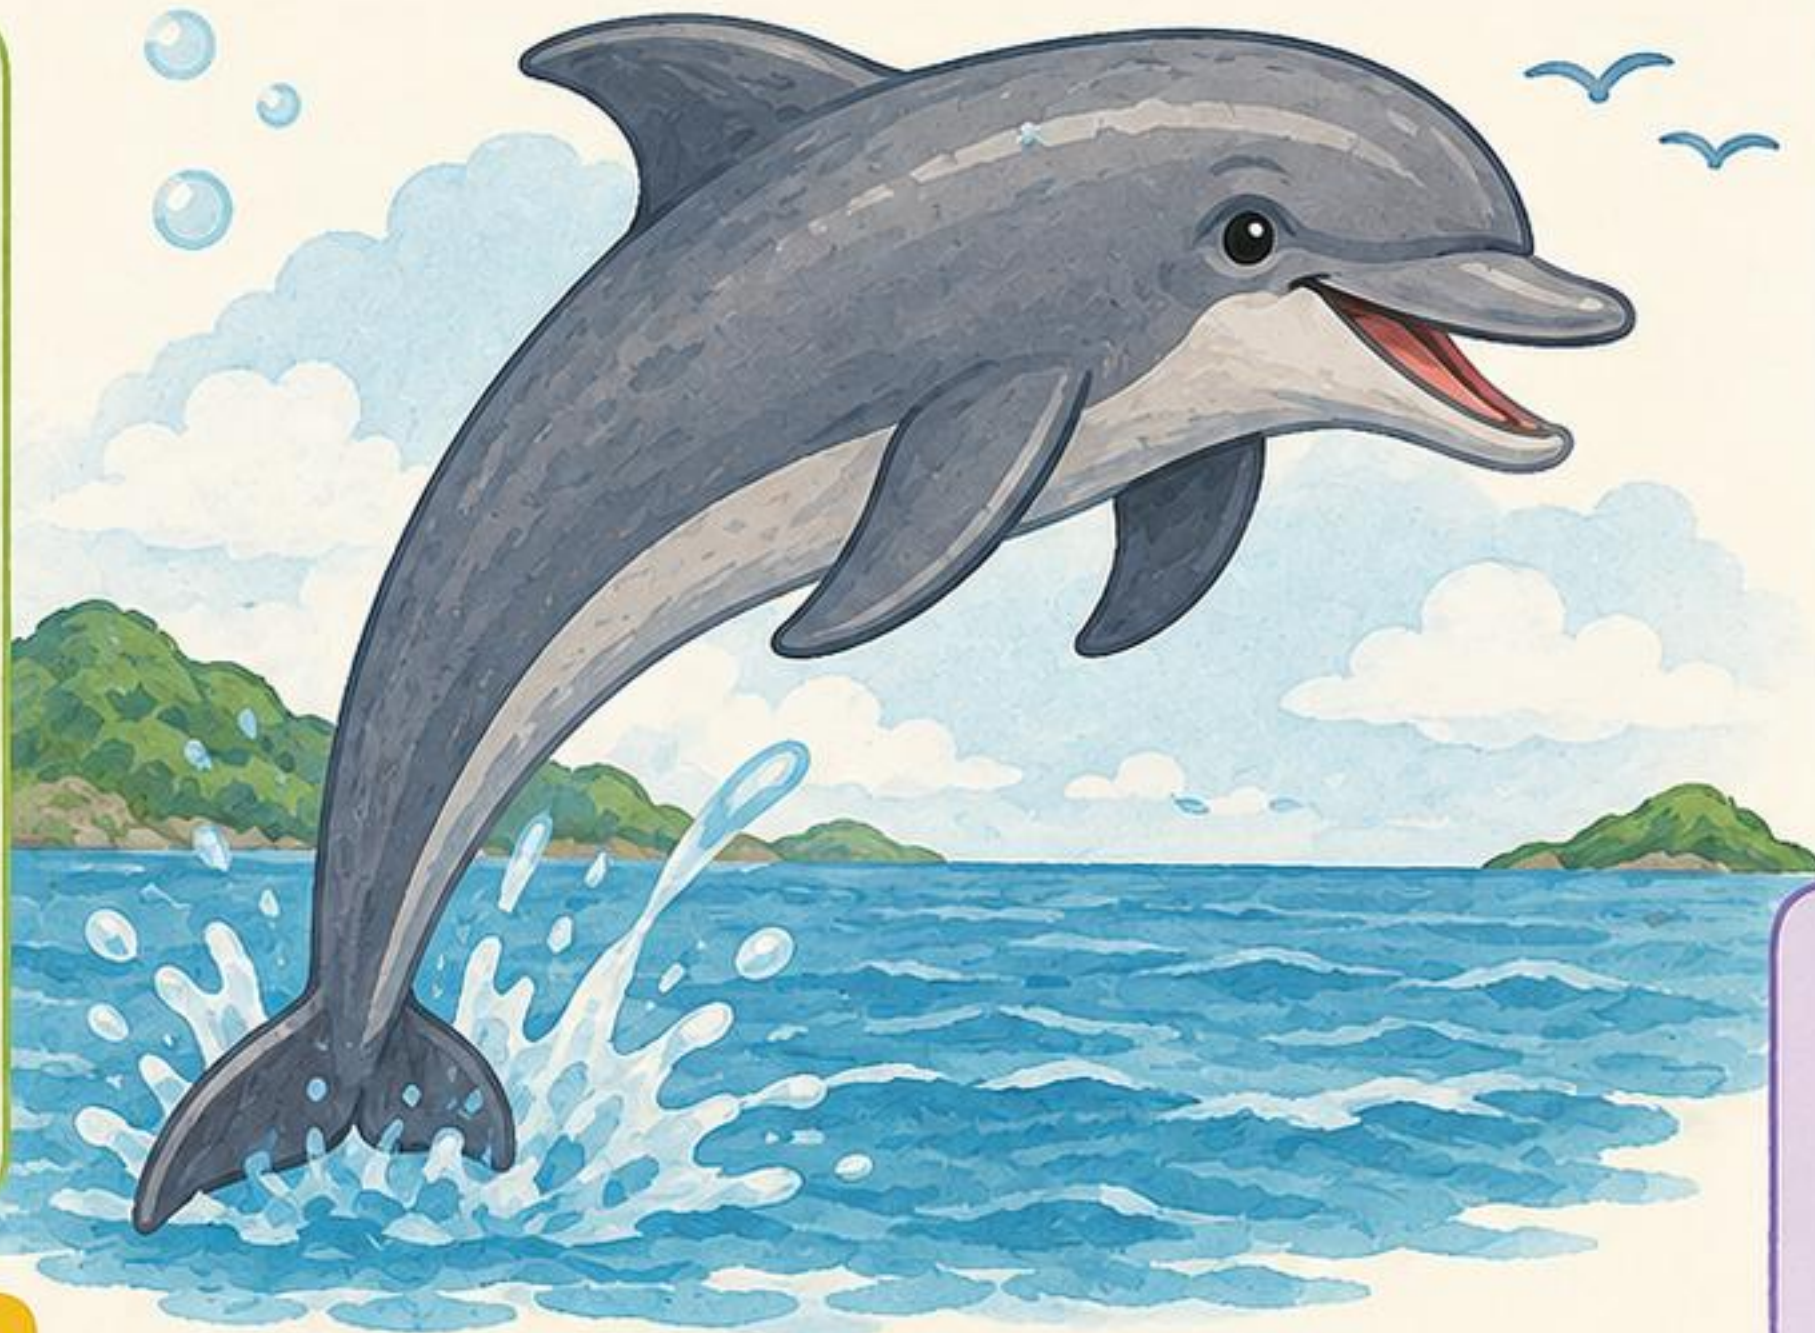

They use clicks and whistles to talk and find things.

Dolphins can swim up to 25 miles per hour!

They live in groups called pods and look out for each other.

HABITAT

Dolphins live in oceans and seas all over the world, in warm and temperate waters.

DIET

Dolphins eat a variety of marine animals.

fish

squid

shrimp

LIFE CYCLE

CALF
(born tail first)

NURSING
(1–2 years)

JUVENILE
(2–8 years)

ADULT
(20–40 years)

YOU CAN HELP!

- ♥ Keep our oceans clean
- ♥ Don't litter or use single-use plastics
- ♥ Learn about marine life
- ♥ Spread kindness!

Small actions
make a
BIG difference!

LET'S WORK TOGETHER TO PROTECT OUR OCEANS AND DOLPHINS! ♥

All About ELEPHANTS!

FUN FACTS

Elephants have amazing memories and never forget!

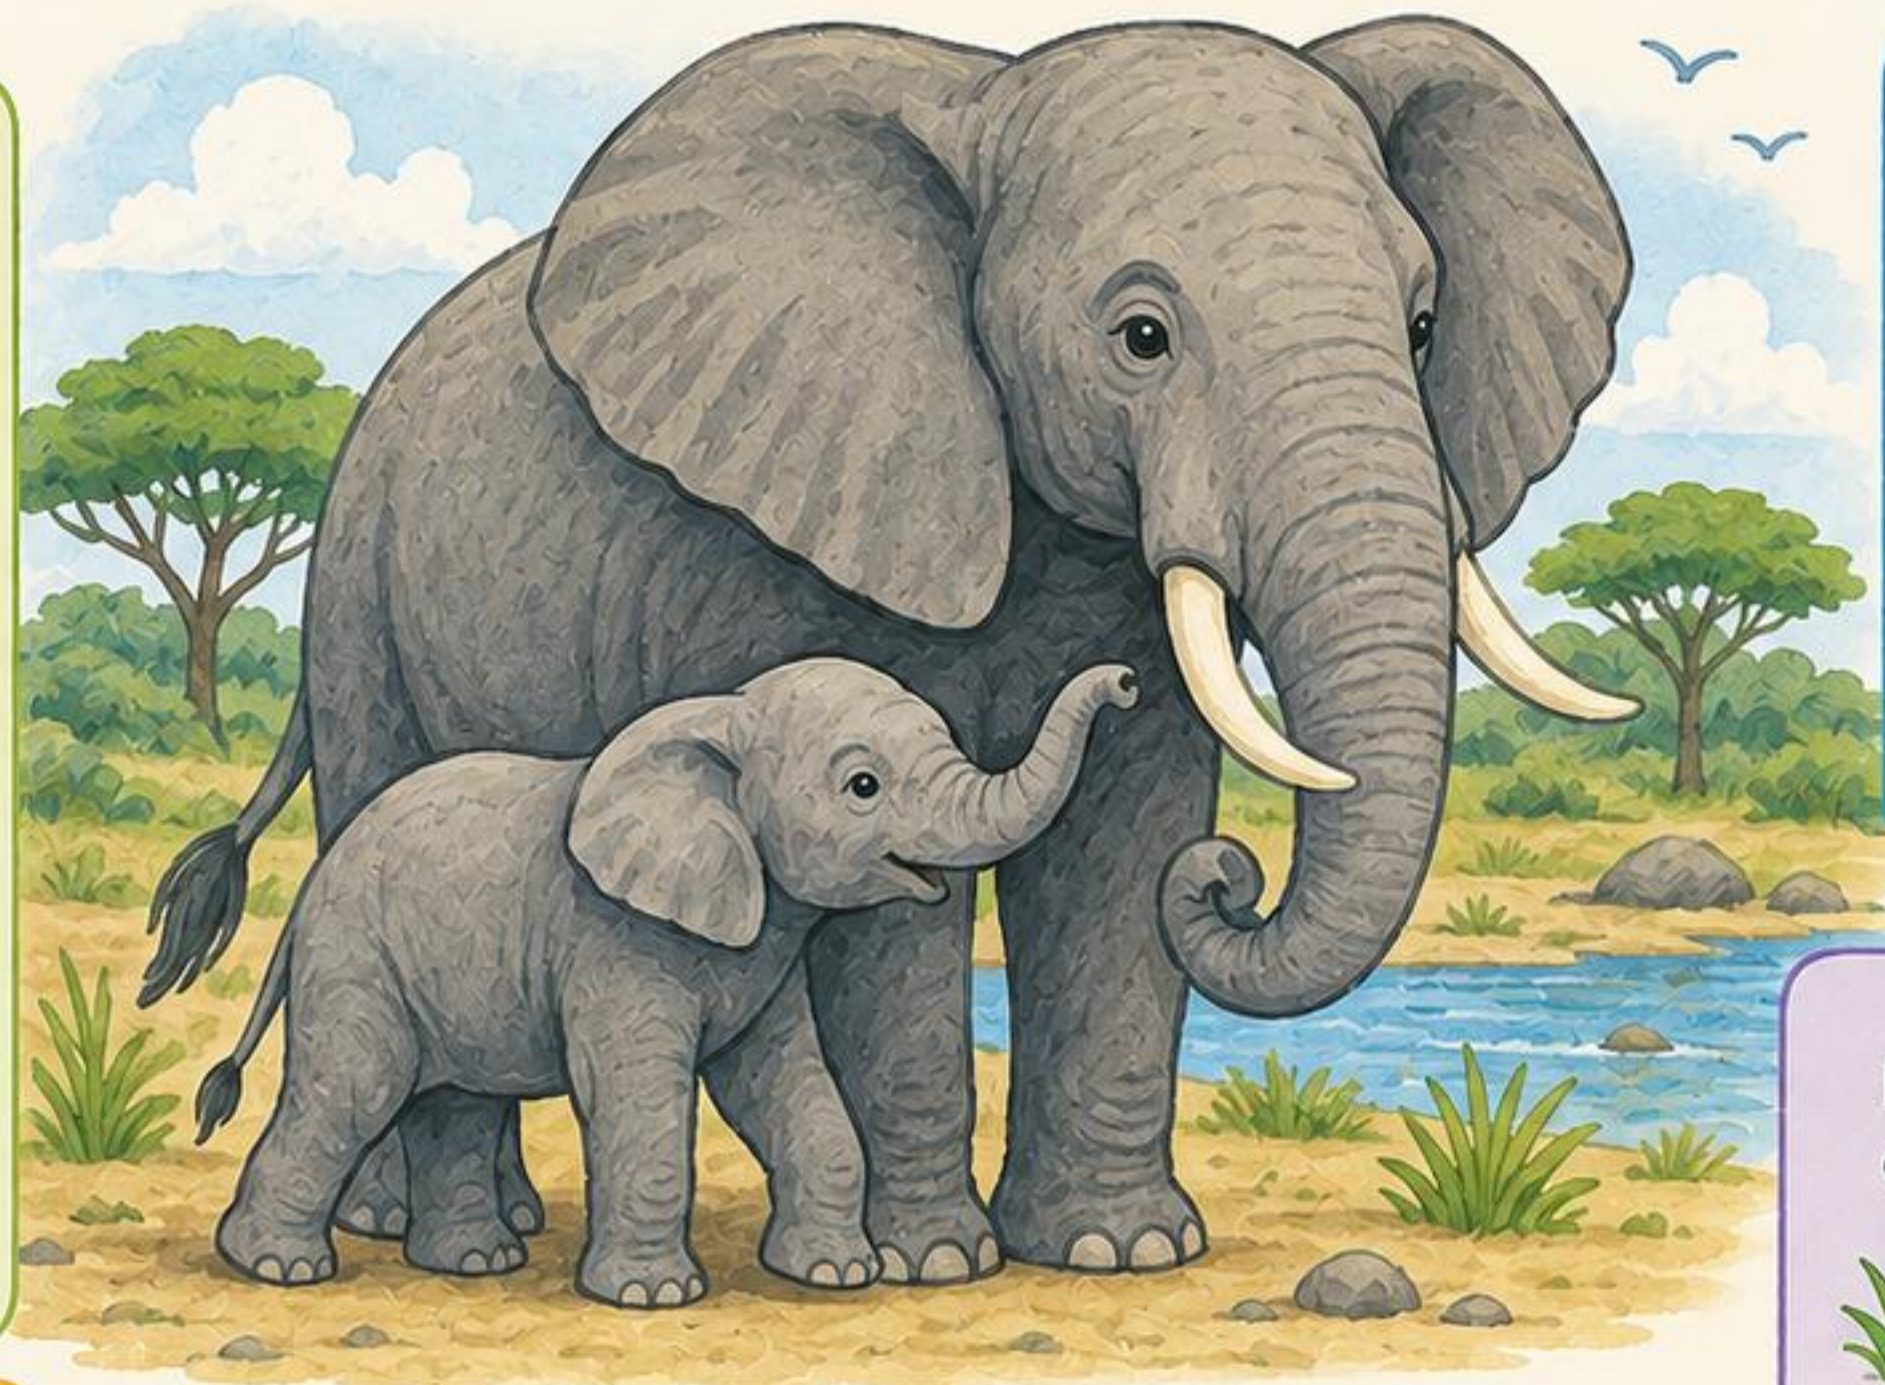

They communicate using low-frequency sounds that travel long distances.

Elephants are the largest land animals on Earth!

They live in close-knit families led by a wise matriarch.

HABITAT

Elephants live in Africa and Asia in savannas, forests, grasslands, and deserts.

DIET

Elephants are herbivores and eat a lot of plants every day!

grass

leaves

fruit

bark

LIFE CYCLE

FETUS
(22 months)

CALF
(birth)

JUVENILE
(1–10 years)

ADULT
(60–70 years)

YOU CAN HELP!

- ♥ Protect habitats and wildlife
- ♥ Don't buy products made from ivory
- ♥ Support elephant conservation
- ♥ Spread awareness!

Small actions
make a
BIG difference!

LET'S WORK TOGETHER TO PROTECT WILDLIFE AND THEIR HABITATS! ♥

All About SEA OTTERS!

FUN FACTS

Sea otters hold hands when they sleep so they don't drift apart!

They use rocks as tools to crack open shells for food.

Sea otters have the thickest fur of any animal to keep warm.

They help keep kelp forests healthy and full of life!

HABITAT

Sea otters live in coastal waters of the North Pacific Ocean, in kelp forests and near shorelines.

DIET

Sea otters eat lots of marine invertebrates.

sea urchins

clams

crabs

snails

LIFE CYCLE

PUP
(birth)

YOUNG
(3–6 months)

JUVENILE
(6 months–2 years)

ADULT
(2+ years)

YOU CAN HELP!

- ♥ Keep our oceans clean
- ♥ Never disturb sea otters
- ♥ Choose sustainable seafood
- ♥ Learn and share the facts!

Small actions
make a
BIG difference!

LET'S WORK TOGETHER TO PROTECT OUR OCEANS AND SEA OTTERS! ♥

All About WHALES!

FUN FACTS

Whales are some of the smartest animals on Earth!

They “sing” songs that can travel for miles underwater.

Whales can hold their breath for up to 90 minutes!

They are gentle giants and don't have any teeth—just baleen to filter food!

HABITAT

Whales live in oceans all over the world, from warm tropical waters to icy polar seas.

DIET

Whales eat tiny sea animals called krill and small fish.

krill

small fish

plankton

LIFE CYCLE

CALF
(birth)

YOUNG
(1–5 years)

JUVENILE
(5–20 years)

ADULT
(20–100+ years)

YOU CAN HELP!

- ♥ Reduce plastic use
- ♥ Never litter
- ♥ Conserve water and energy
- ♥ Support ocean conservation
- ♥ Spread awareness!

Small actions
make a
BIG difference!

LET'S WORK TOGETHER TO PROTECT OUR OCEANS AND WHALES! ♥

All About LIONS!

FUN FACTS

Lions are the only cats that live in groups, called prides!

You can hear a lion's roar up to 5 miles (8 kilometers) away!

Lions can run up to 50 miles per hour in short bursts!

Lions are caring parents. Lionesses work together to protect their cubs.

HABITAT

Lions live in savannas, grasslands, and open woodlands in Africa and a small part of Asia.

DIET

Lions are carnivores. They mainly eat large animals.

zebras

wildebeest

antelopes

LIFE CYCLE

CUB
(birth)

YOUNG LION
(6 months–2 years)

SUBADULT
(2–4 years)

ADULT
(4–16 years)

YOU CAN HELP!

- ♥ Protect lions and their habitats
- ♥ Never support wildlife trafficking
- ♥ Learn and teach others!
- ♥ Support organizations that help lions

Small actions
make a
BIG difference!
