

We all have different feelings throughout the day. Mood Modes help us understand how we feel and choose what we need to do. ★

YOUR MOOD MODES

100%

RECOGNIZE IT. USE WHAT HELPS. FEEL YOUR BEST.

All feelings are okay. It's what we do with them that matters. ♥

RECHARGE MODE

Low Energy

Feeling down, tired, sad, or bored.

LOOKS LIKE:

- Moving slowly
- Little energy
- Sad or discouraged
- Wanting to be alone

I CAN TRY:

- Get some rest
- Talk to someone
- Listen to music
- Do something that makes me feel good

READY MODE

Good to Go!

Calm, happy, focused, and ready to learn.

LOOKS LIKE:

- Calm body
- Happy or content
- Able to focus
- In control

I CAN TRY:

- Keep up the good work!
- Help someone
- Stay organized
- Take breaks

ALERT MODE

Heightened

Worried, frustrated, excited, or silly. Losing some control.

LOOKS LIKE:

- Fidgeting
- Worried or stressed
- Silly or overly excited
- Trouble focusing

I CAN TRY:

- Take deep breaths
- Use a break or quiet space
- Stretch or move
- Think positive thoughts

OVERDRIVE MODE

Out of Control

Overwhelmed, angry, elated, or out of control.

LOOKS LIKE:

- Yelling or crying
- Angry or panicked
- Out of control
- Hard to think clearly

I CAN TRY:

- Stop and take space
- Deep breaths
- Ask for help
- Use a calming tool (count, squeeze, etc.)

TOOLS I CAN USE ANYTIME

LISTEN TO MUSIC

JOURNAL

DRINK WATER

MOVE MY BODY

TAKE A BREAK OR GO OUTSIDE

DO SOMETHING I ENJOY

USE A CALMING OBJECT

CHECK IN.

- ✓ NAME IT.
- ✓ CHOOSE A STRATEGY.
- ✓ MAKE IT WORK FOR YOU.

Small choices lead to big changes. ★

YOU'VE GOT THIS. ★

THE RECHARGE MODE

It's okay
to feel this way.
You are not alone.

Low Energy • Need Rest
Time to Recharge

WHAT IS RECHARGE MODE?

Recharge Mode is when you feel low energy and need rest. Your body and mind are telling you it's time to slow down and take care of yourself.

All feelings are okay.

Recharge Mode is a signal that you need rest, comfort, and support to feel better.

HOW I MIGHT FEEL

Sad or down

Tired or sleepy

Bored or unmotivated

Needing rest

Lonely or wanting space

Moving slowly

Low energy or no motivation

WHAT IT LOOKS LIKE

- ✓ Low energy
- ✓ Wanting to be alone
- ✓ Not interested in much
- ✓ Hard to focus
- ✓ Taking longer to do things
- ✓ Body feels heavy or slow

THINGS THAT CAN HELP ME GET BACK TO READY MODE

Sheep or take a nap. Give your body the rest it needs.

TALK TO
SOMEONE

Share how you feel with someone you trust.

LISTEN TO
MUSIC

Calming music can help lift your mood.

DO SOMETHING
GENTLE

Read, draw, journal, or watch something cozy.

DRINK WATER & EAT

Take care of your body—it helps your mind too.

MOVE A LITTLE

Stretch, take a walk, or do some light movement.

YOU MATTER.
YOU ARE ENOUGH.

REMEMBER:

Recharge Mode won't last forever. Small steps and self-care help you feel better and get back to Ready Mode.

Take it one
step at a time.
You've got this.

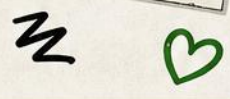

THE READY MODE

You've got this!
You are ready for what's next.

Good to Go • Calm • Happy
Focused • Ready to Learn

WHAT IS READY MODE?

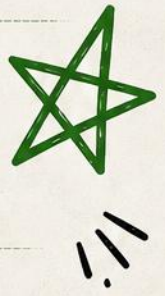

Ready Mode is when you feel calm, happy, focused, and ready to learn or play.

Your body and mind feel balanced.

You can handle what's ahead and make good choices.

HOW I MIGHT FEEL

-  Calm
-  Happy or content
-  Focused
-  Ready to learn
-  Confident
-  In control
-  Okay and relaxed

WHAT IT LOOKS LIKE

- ✓ Good energy and steady breathing
- ✓ Listening and following directions
- ✓ On task and participating
- ✓ Positive attitude
- ✓ Using kind words and actions
- ✓ Working well with others
- ✓ Prepared and organized

THINGS THAT HELP ME STAY IN READY MODE

-  Get enough sleep
-  Drink water
-  Eat healthy foods
-  Move my body
-  Take breaks
-  Spend time with people I care about
-  Use positive self-talk

TOOLS I CAN USE ANYTIME

Listen to music

Write or draw in a journal

Go outside or get fresh air

Take deep breaths

Use a fidget or calming tool

Stretch or move

Talk to someone I trust

KEEP IT UP!
You're making choices that help you feel good!

REMEMBER:
The more I use my tools and make good choices, the more I stay in Ready Mode!

**GOOD CHOICES.
GOOD DAY.
READY FOR ANYTHING!**

THE ALERT MODE

Caution • My Engine is Revving
Worried • Frustrated • Silly • Anxious
Excited • Losing Some Control

I need to slow down and use tools to stay in control.

You've got this!
Use a tool,
slow down, and
get back to
Ready Mode.

WHAT IS ALERT MODE?

Alert Mode is when your energy starts to get higher. You may feel worried, frustrated, silly, anxious, excited, or like you're losing some control.

It's a **signal** that it's time to pause, slow down, and use tools to get back to **Ready Mode**.

HOW I MIGHT FEEL

Worried or anxious

Frustrated

Excited or overly excited

Silly or giggly

I can't sit still

Hard to focus

Losing some control

WHAT IT LOOKS LIKE

- ✓ Fidgeting or squirming
- ✓ Talking a lot
- ✓ Racing thoughts
- ✓ Trouble focusing
- ✓ Making silly mistakes
- ✓ Irritable or easily annoyed
- ✓ Loud voice or arguments
- ✓ Acting without thinking

THINGS THAT CAN HELP ME GET BACK TO READY MODE

Take deep breaths

Stretch or move

Take a break

Drink water

Think positive thoughts

Use a calming tool

Use positive self-talk

TOOLS I CAN USE ANYTIME

LISTEN TO MUSIC

DRINK WATER

WRITE OR DRAW

MOVE MY BODY

USE A CALMING TOOL

USE A TIMER

TAKE A BREAK SOMEWHERE CALM

YOU CAN
HANDLE THIS.
YOU'VE GOT
CONTROL.

REMEMBER:

Alert Mode doesn't mean you're in trouble. It means your body and brain are working hard. Use your tools, slow down, and get back to Ready Mode.

Pause.
Use a tool.
Slow down.
Get back to
Ready Mode.

THE OVERLOAD MODE

Out of Control • Overwhelmed
Panic • Elated • Need Help ♥

I need to stop and get support.

It's okay
to feel this way.
The goal is
to get help
and get back
to Ready Mode.

WHAT IS OVERLOAD MODE?

Overload Mode is when
your emotions and
energy are too much
to handle.

Your body and brain are
overwhelmed and **out of control**.

It's a danger zone.

You need to **STOP** what you're
doing and get help right away.

HOW I MIGHT FEEL

Angry or raging

Terrified or panicked

Yelling or screaming

Out of control

Wanting to hurt myself or others

I can't think clearly

My heart is racing

My body is tense or shaking

WHAT IT LOOKS LIKE

- Throwing things or breaking things
- Hitting, kicking, or hurting
- Loud, non-stop yelling
- Pacing or running away
- Crying hard or hyperventilating
- Can't focus on anything
- Making impulsive or unsafe choices
- Refusing help or shutting down

THINGS THAT CAN HELP ME GET BACK TO READY MODE

STOP. Don't act.

Take deep breaths (in for 4, hold 4, out for 6)

Use a calming tool or visualization

Listen to calming music

Move it out: exercise, walk, or stretch

Ask for help from a trusted adult

TOOLS I CAN USE ANYTIME

DEEP
BREATHS

CALMING
MUSIC

STRESS BALL
OR FIDGET

WRITE IT
OUT

DRINK
WATER

MOVE MY
BODY

TAKE A BREAK
IN A SAFE SPACE

IT'S NOT ABOUT
BEING GOOD ALL THE TIME.
**IT'S ABOUT GETTING
THE HELP YOU NEED.**

REMEMBER:

Overload Mode won't last forever.
It's okay to ask for help.
You deserve support and
it will help you feel better.

I CAN GET HELP.
I CAN TAKE A BREAK.
I CAN GET BACK TO
READY MODE.
